## Announcement of Establishment of Abu Dhabi Branch

1 January 2019

Japan Inspection Co., Ltd. (JIC) in line with its globalization program, is pleased to announce that it has established a 100% owned Branch in Abu Dhabi, United Arab Emirates.

With Abu Dhabi's recent approval of a multi-billion US Dollar capital investment plan to support Abu Dhabi National Oil Company's (ADNOC) five-year growth plan which includes a gas strategy to become self-sufficient, with the potential to become a net gas exporter, as well as the approval of a multi-billion US Dollar stimulus plan to help lift domestic product growth and increase consumption, many infrastructure, industrial, social and legislative projects will be developed.

Our Branch will therefore be ideally positioned to provide our customers (in-country and overseas, including GCC countries), with the high level of technical services required to achieve success with these projects.

The details of our Branch are as follows:

1. Trade name of branch company: Japan Inspection Co., Ltd.
2. Legal form: Foreign Branch - Japan
3. Date legally established: 20 November 2018
4. Date of commencement of business: 1 January 2019

5. Address: Office No. 211  
LLJ Business Centre  
Al Jazira Sports & Cultural Club (West Wing)  
4<sup>th</sup> Street (Al Muroor)  
(Opposite CERT Technology Park)  
P.O. Box 37582  
Abu Dhabi  
United Arab Emirates

6. Tel. No.: +971 2 495 0574

7. Fax No.: +971 2 445 4671

8. E-mail address: [t.uchida@jic-abudhabi.com](mailto:t.uchida@jic-abudhabi.com)

9. Name of representative: Mr. Takeo (Tony) Uchida, General Manager (stationed in Abu Dhabi)

10. Main technical services to be provided:

- (1) Inspection and supervision of quality control with respect to plant facilities, production conditions, capacity, etc.
- (2) Review and consultation of design of manufactured products.
- (3) Quality inspection of industrial products including chemical analysis and physical testing.
- (4) Other services including review of material certifications, welding procedure specifications and qualification records, and welding operators' qualification records; witness of destructive/non-destructive testing on specific materials/equipment; check of final preparations for dispatch; factory QA system audits, plant/shop surveys and post contract supplier appraisals; pressure vessel and other static vessel design verifications; expediting; pipe mill inspections; new construction/revamp/ maintenance inspections; manufacturing process auditing; equipment capabilities verification; assessment of production schedules; and verification of delivery schedules.

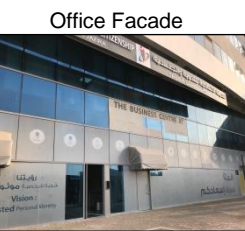

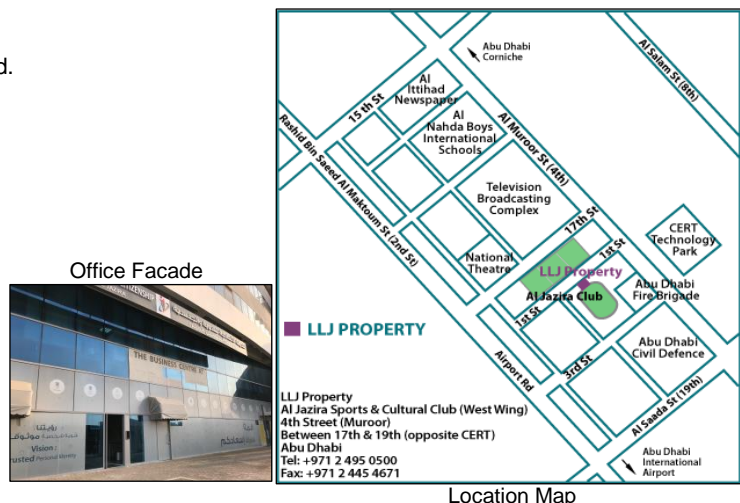

### About JIC

JIC has its Corporate Headquarters in Tokyo, Japan, and is an independent and unbiased provider of quality services which has, for more than 65 years, since its foundation in 1953, delivered innovative solutions to its customers in a wide range of industries to facilitate their success in the global marketplace.

It is a leader in the field of testing, inspection, expediting, and quality audits, and is committed to supporting and adding value for its customers through its rigorous compliance program that ensures its employees operate professionally and ethically, and the services it provides are augmented by its approval as an ISO 9001:2015 (JIS Q 9001:2015) company by Lloyd's Register Quality Assurance Limited, and its accreditation to ISO/IEC 17020:2012 (JIS Q 17020:2012) as a third-party Type "A" Inspection Body by the Japanese Accreditation Body, Japan Association for Conformity Assessment (JAB).

JIC has an extensive network of technical personnel, working in most areas of the world, including Asia, Oceania, Europe, North Africa, Middle East and the Americas, and it specializes in many technical areas relating to Oil and Gas Processing Facilities, Oil/Gas Exploration and Production, Chemical Plants, Petrochemical Plants, Water Treatment Facilities, Power Generation Facilities (Nuclear, Thermal, Hydro-electric, Solar, Wind and Geo-thermal), Electric Power Transmission & Distribution System projects, Civil/Construction Industry projects, Waste Incineration Plants, Electrical Industrial Plants, Infrastructure Projects, Transportation Projects, Regional Heating and Cooling Facilities, Steel/Pipe Mills, etc.

JIC greatly appreciates your support in this new endeavour, and look forward to receiving further guidance and encouragement from you for our new Branch in Abu Dhabi.
